“Microsurgery Course on Vascular Anastomoses”

2016 - Pavia - Italy

16-19 February 2016

17-20 May 2016

8-11 November 2016

**Course Leader:
Frau Rosmarie Frick**

Scientific Committee:

F. Acerbi, E. Benericetti, M. Cenzato, P. Ferroli,
P. Gaetani, E. Giombelli, A. Lanterna, A.L. Messina,
G. Pappadà, A. Pasqualin, C. Serra

Italian Organizers:

G.B. Pappadà, A.L. Messina

Policlinico di Monza
Gruppo Sanitario

Dear Colleagues and Friends,

It is a great honour to invite you to the **Microsurgery Course on Vascular Anastomoses**.

We are proud to announce a cycle of microsurgical practical courses, for neurosurgeons, vascular surgeons, plastic surgeons, maxillofacial surgeons and residents, that will be held in our labs under the direction of Mrs Rosmarie Frick, the worldwide known teacher of the legendary "Zurich Microsurgery Course".

The number of participants will be expressly limited, in order to allow each trainee to have its own lab station equipped with microsurgical instruments and microscope.

During four full days of training, the participants will be able to familiarize themselves with the microinstruments and learn the key-points of micro-dissection, micro-suturing and vascular anastomosis.

With different exercises, on plastic tubes and in vivo, the participants will be able to do their first vascular anastomosis, taking the first step towards the fascinating world of vascular neurosurgery.

We are looking forward to welcoming you in Pavia for our course.

The Scientific Committee

Day 1

- 08.30-08.45 Demonstration of suture techniques with 6-0 suture.
08.45-11.00 Participants: Suture technique practice by silicon tubing with 6-0 suture.
11.00-11.15 Demonstration end-to-end anastomosis on Silicon tubing.
11.15-12.00 Participants: End-to-end anastomosis on silicon tubing.
12.00-12.30 Lunch
12.30-17.00 Participants: End-to-end anastomosis on silicon tubing. Preparation of chicken leg and wing cadaver.
-

Day 2

- 08.30-09.00 Demonstration of end-to-end anastomosis on carotid of rat.
09.00-12.00 Participants: End-to-end anastomosis on carotid of rat.
12.00-12.30 Lunch
12.30-17.00 Participants: End-to-end anastomosis on carotid of rat.
17.00-18.30 Demonstration of end-to-side anastomosis Jugular vein to carotid communis artery of rat
-

Day 3

- 08.30-12.00 Participants: End-to-side anastomosis, Jugular vein to carotid communis of rat
12.00-12.30 Lunch
12.30-17.00 Participants: End-to-side anastomosis on carotid of rat.
17.00-18.30 Demonstration of side-to-side anastomosis aorta and vena cava of rat
-

Day 4

- 08.30-12.00 Participants: End-to-side anastomosis, Jugular vein to carotid communis artery of rat.
12.00-12.30 Lunch
12.30-15.30 Participants: End-to-side anastomosis jugular vein to carotid communis artery, or end-to-end anastomosis on carotid of rat
15.30 Overview and Course Closure.

In 2016 Frau Frick's Microsurgery
course will be held in Pavia instead
of in Monza.

Pavia is a small city in Lombardy at
about 45 km far from Milan.

In Pavia there is one of the oldest
Medical Faculty in Italy with Padova
and Bologna.

Pavia can be reached by train from
Milan-Central Station in about 30
minutes.

By car, the way from Milan to Pavia
takes at least 50 minutes by the A7
highway.

International airport of Milan-Mal-
pensa and Milan-Linate are con-
nected by bus to Milan-Central
Station.

The above mentioned hotel allows
to reach course venue building by
foot.
